

5o.-F5J Trophy ALTIMETER

7 and May 8, 2016 - PLA DE VENT - BRAFIM -Tarragona

Scoring for Intertour / Eurocontest 2016

Basic regulations

1. This contest will apply the current FAI Official Rules F5J 2015.

If someone you like, you can check your original content in English on the website of the FAI. An unofficial translation of the regulations for 2011 is available on the website of the Madrid air Federation.

2. Contestants must know and apply this policy at all stages of the contest.

3. Contestants may only register and employ up to 2 altimeters. The use of unregistered altimeters involve the disqualification from the contest.

4. The firmware installed on the altimeter must meet FAI rules without re-starting the engine. It is the responsibility of the pilot to have the altimeter and reader firmware updated to version indicated. The use of altimeters and / or outdated readers involves disqualification from the contest.

5. altimeters and allowed firmwares

a. RC ELECTRONICS (FAI without re boot firmware)

b. Altis Altis V3 and V.4 (firmware FAI)

c. For altimeters other manufacturers or other models, the participant must indicate the make and model organization and provide the software and drivers joanf5j@gmail.com mail by Thursday April 20-2016. The participant must provide the reader and cables needed to take readings and checks them in the computer of the organization.

6. Readers permitted:

a. RC FXJ Programming Card version 1.2 and 1.4

b. Readers party participants must bring their own e-reader and indicate to joanf5j@gmail.com day before April 20, 2016.

7. Contestants must come with memory erased and authorized altimeter firmware loaded

8. The operation and altimeter reading will be sole responsibility of the participant.

9. In a first reading failure (non-procedural) will try to get the reading starting in the computer of the organization. If the reading is not possible with the computer, the flight rate a zero. The second reading and subsequent failure will mean a zero flight.

10. Formalizing the inscription:

Each pilot will be recorded in the control table for the delivery of federal license, registration verification data (frequency, patterns, ...), and dorsal delivery. and marking the altimeter.

11. To provide information on the evolution of the championship, the organization published the corresponding interim results of each of the groups and the provisional results of the disputed sleeve.

12. If there were matching frequencies, the pilots involved have to submit their issuers at the table of the organization at the beginning of the championship and after each one of their corresponding flights.

13. Classification and list of contestants who pass the fly off will be published at the end of the eight flights.

14. the worst flight of each participant and always will be discarded when they have flown a minimum of six flights.

15. It is the responsibility of the pilot to verify the data that judges have registered and sign the judge at the end of each flight. After signing, there is no possibility of complaint. The data entry errors on the computer can be claimed up to 30 minutes after the publication of the final results. If claim is not brought in this time, the results are accepted as definitive.

Schedules tests

We will be especially rigorous as we can in the implementation of the same

NOTES;

Tarragona is a province that has a long history. It has many monuments that are World Heritage Site and has many interesting places to be visited.

Its cuisine is excellent and is very ready to welcome travelers of all nationalities.

It has a lovely, clean and a very nice white sand beaches.

Near City in just 15 minutes there is an amusement park with two of the biggest roller coasters in Europe.

It is perfect for a family holiday and more than affordable prices.
